VIAVI

Quickstart Integration Configuration

If you need your Viavi Solutions® performance management solutions up and running fast, the Quickstart Integration Configuration will jumpstart your program. Professional consultants will set up your platform and make sure it's configured optimally in as few as 4 hours.

Did You Know:

Companies that take advantage of Viavi Solutions Consulting use twice as many performance management features on average

Have you ever installed a system only to discover that a critical area was misconfigured, resulting in months of lost data and history? Starting with a correct configuration provides instant return on investment and high long-term value. Consultants provide everything you need to get the most out your Viavi purchase while you save time and money.

How It Works

This service covers fundamental configuration needs with respect to your Viavi products and overall business goals. Organizational goals will be documented, implementation plans will be created, and the configuration will be completed to your specifications. The Virtual Service is a half-day remote session, while the On-Site Service is up to a full day.

What You Get

Here are some of the areas that this service addresses:

- Base configuration
- Standard protocols
- System health
- Drive array configuration
- Memory configuration
- Instance configuration

On-Site Service

Up to 1 day on site

Virtual Service

Up to 4 hours via web meeting

Relates to the Viavi Observer® Analyzer, Observer GigaStor®, Observer Apex™, Observer Management Server (OMS), Observer Infrastructure (OI), and Observer Matrix
