

Basic Use of NetAnalyst NGT Test Management Software – Self-Paced Training

Course Number	Delivery Method	Course Length	Language of Instruction
TT-NA-NGT--SP	Self-Paced	90 minutes	English

Synopsis

Instruction will be given on how to navigate the NetAnalyst NGT Web-based GUI and menus for testing communications circuits. A solid foundation of technical knowledge is covered, including a structured approach to configuring and running consistent, accurate, and efficient circuit testing procedures using NetAnalyst NGT.

Prerequisites

Introduction to Telecommunications (TT-TELCOM), or equivalent, and basic computer and mouse/track ball experience.

Who Should Attend

This self-paced course is intended for novice, intermediate, and experienced users who want to use NetAnalyst NGT effectively and efficiently.

Course Goals

Upon completion of this course, participants will be able to:

- Access and operate the NetAnalyst NGT GUI and menus
- Set up and run tests using NA NGT
- Locate and manage NA NGT test results

Course Outline

NetAnalyst NGT Overview

- What is NetAnalyst NGT?
 - NetAnalyst NGT System Architecture
 - NetAnalyst NGT Test Organization
- Accessing the NetAnalyst NGT server
- Changing your password
- Toolbar Overview

NetAnalyst NGT Basic Operations

- Setting up and running tests using NA NGT
 - Step 1: Searching for and selecting test heads or services
 - Step 2: Setting up a new test request
 - Step 3: Running a test
 - Cancelling a Running test
 - Saving Test Configurations
- Viewing Test Lists
- Displaying and printing test results
- Saving and deleting test results
- Exporting test results
- Logging Out of NA NGT

Additional Features, Options, & Problem Resolutions

- Setting up & Performing NetComplete/Sequenced Tests
- Scheduling a Test (optional)
- Setting up execution options (optional)
- Resolving Various Problems Experienced while working with NA NGT
 - Unable to log in
 - Login page does not appear in Web browser
 - Incorrect or incomplete test results
 - Graphs for RFC tests do not appear
